## **Dr Stephen Child**

*Director Clinical Training*

**Auckland DHB (Member of the Medical Training Board)**

---

Dr Stephen Child is Canadian trained and immigrated to New Zealand in late 1991.

He worked in Dargaville for 2½ years before moving to his current role as a General and Respiratory Physician and the Director of Clinical Training at Auckland District Health Board in 1994.

Clinically he has an interest in asthma and general internal medicine with a strong passion for medical education. He sits on a number of national, regional and local committees with a vision to improve education and training of junior doctors and thereby ensure that New Zealand has a medical workforce that is well staffed and capable to look after the future medical needs of the people of New Zealand.
