

## **ADULT TOOTH PAIN - WHERE TO GET EMERGENCY RELIEF**

There is nothing worse than suffering with a tooth ache, except perhaps not knowing where to go for relief or not having the money for the cost.

Counties Manukau District Health Board subsidises emergency dental relief of pain costs for low income adults over the age of 18 years who have a Community Services Card.

There is a maximum of 3 visits per person per year and there is a \$40 charge for the relief of pain service provided. For the \$40 charge the tooth may be dressed, there may be antibiotics to treat the infection or, if required, the tooth may be pulled out.

The service does not include any on going treatment to the tooth such as fillings or root canals, dentures or orthodontic treatment. For all dental treatment services always ask for a cost estimate before treatment.

The following clinics provide the subsidized relief of pain service:

### **Middlemore Hospital Dental Department** – Hospital Road, Otahuhu

- phone 276 0000 and ask for the dental service.

- **Days and hours of clinic:** Monday to Friday, mornings only. Doors open at 6.00 am and people are seen on a first come first serve basis.

– phone 09 296 2636 to make an appointment.

- **Days and hours of clinics:** Seven days a week from 9.00 am to 8.00 pm.

## PREVENT TOOTH DECAY

Dental decay is painful. It also affects how we enjoy our food, our ability to sleep and concentrate, and our overall feeling of well being.

Dental treatments are costly. The best way to avoid the high costs and stay feeling well is by preventing tooth decay.

5 tips for a healthy smile:

**1. Brush teeth 2 x every day with a fluoride toothpaste.**

After brushing spit out the toothpaste but don't rinse. This way the fluoride stays in the mouth longer protecting the teeth.

**2. A toothbrush for each person.**

Don't share toothbrushes, you can share germs and spread tooth decay.

**3. Floss teeth**

Flossing is the way to clean in between teeth where the toothbrush can't reach. Often decay will start in the hard to reach places in between teeth.

**4. Choose healthy snacks and drink plenty of water.**

Make sure that teeth get a rest from sugar – higher sugar consumption the greater the risk of tooth decay.

By substituting cheese, yogurt, nuts, unsweetened popcorn, fruit or raw veges for snacks and treats, and water for soft drinks or fruit juices you can protect teeth from decay and help to stay healthy.

**5. Have regular dental check ups.**

By looking after our own teeth we are also a good role model for children to help them stay well and keep their teeth free of decay.

For more information on oral health and prevention of tooth decay phone 0800 TALK TEETH (0800 825 583), or visit [www.letstalkteeth.co.nz](http://www.letstalkteeth.co.nz)

## CHILDREN & ADOLESCENT FREE DENTAL SERVICES - AUCKLAND

Children in New Zealand are entitled to free dental services from 0 to 17 years of age, until their 18<sup>th</sup> birthday. It's important to enrol your child as soon as possible to prevent tooth decay and get the best care for them. Auckland Regional Dental Service (ARDS) provides free dental care for children in the Auckland region from 0 - 17 (until their 18<sup>th</sup> birthday).

### Pre-school and school age children

Children can be enrolled for free dental visits from their first tooth. It's important to look after baby teeth as decay in the first teeth will be painful and can affect the child's eating and development, and may affect their permanent teeth as well.

For more information about the School Dental Service available for children 0 to year 8 (Form 2), how to enrol your child at your nearest school dental clinic and contact details for enquiries, phone 0800 TALK TEETH (0800 825 583), or visit [www.letstalkteeth.co.nz](http://www.letstalkteeth.co.nz)

### Secondary school or Adolescent

Looking after teeth is just as important during the teenage years; dental care is free from year 9 up to 17 years of age (18th birthday).

For more information on adolescent dental care from year 9 or 3<sup>rd</sup> form, and how to enrol, phone 0800 TALK TEETH (0800 825 583), or visit [www.letstalkteeth.co.nz](http://www.letstalkteeth.co.nz)
